

Society of Statistics, Computer and Applications (SSCA)

January 27, 2017

Change of dates of Annual Conference (06 March to 08 March 2017)

1. This has reference to the notices dated 27 May 2016 and subsequently 01 November 2016 sent to you by e-mail and hosted at the SSCA website www.ssca.org.in about the organization of 19th Annual Conference of the Society of Statistics, Computer and Applications (SSCA) at Sher-e-Kashmir University of Agricultural Sciences and Technology at Jammu, Jammu during 27 February 2017 to 01 March 2017.
2. In this connection, it is now informed that because of an overlap with the visit of Accreditation Team of ICAR at SKUAST-Jammu during 27 February 2017 to 02 March 2017, the University Management Committee has advised to postpone the dates of the conference as no concurrent event can be held during this period. Therefore, in consultation with the authorities of SKUAST-J, it has been decided to postpone the dates of the Conference.
3. The conference would now be held during **06 March, 2017 to 08 March 2017** at the same venue as mentioned above. All the activities of the conference would continue as planned. The inconvenience caused by the change of dates is deeply regretted.
4. There have been some queries about holding of conference at Jammu because of the disturbances in the region. There had been detailed discussion about this with the organizers. They have assured that Jammu is very peaceful and is not affected by these disturbances. So the conference would be held as planned.

The registration fee can be paid online and bookings for travel can be made / altered. The inconvenience caused because of this last minute change of dates is deeply regretted.

We look forward to your cooperation in making this conference a grand success.

Dipak Roy Choudhury
Secretary, SSCA
