

Statistics and Applications

Contents Volume 10, Nos. 1&2, 2012 (New Series)

1. Block Designs Balanced for Second Order Interference Effects from Neighbouring Experimental Units 1
-Arpan Bhowmik, Seema Jaggi, Cini Varghese and Eldho Varghese
2. Estimation of Domain Total for Unknown Domain Size in the Presence of Nonresponse 13
-Kaustav Aditya, U.C. Sud and Hukum Chandra
3. Knowledge acquisition using rough set based post-processing of clusters: Characterizing ICT access to women farmers 25
-Rajni Jain, Alka Aror and Usha Ahuja
4. Interpreting genotype by environment interaction using weather covariates 45
-Roma Rani Das, Anil Kumar V. , Sujay Rakshit, Ravikanth Maraboina, Sanjeev Panwar, Seema Savadia and Abhishek Rathore
5. Optimum Conditions for Mixture Experiments with Process Variable for the Expected Response with Minimum Variability 63
-Upendra Kumar Pradhan, Krishan Lal and V.K. Gupta*

Editorial Board: 2013 onwards

Founder Chair Editor: Late Dr MN Das

Chair Editor: Aloke Dey

Executive Editor: Rajender Parsad

Managing Editor: Lalmohan Bhar

Associate Editors

Alka Arora
